DETAILED ACTION

Allowable Subject Matter

Claims 1-41 allowed.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

In regard to claims 1 and 24, the prior art does not teach or render obvious wherein filling a mode generator with the dielectric to be measured comprises disposing first and second pistons opposite one another to form a gap therebetween, and disposing a cylinder to contact portions of exterior walls of each of the first and second pistons and to form a closed space to receive the dielectric in the combination as claimed.

Claims 2-23 and 25-41 are allowable because they depend from allowable claims 1 and 24. As claims 1 and 24 were generic to all species and found allowable, previously withdrawn claims 5-10, 16-23, 34-36, and 39 are rejoined and deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

A pertinent piece of prior art is as follows:

May et al. (6879166) discloses a system containing a single piston in a cylinder with a liquid whose dielectric constant is determined using capacitance measurement.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeff Natalini whose telephone number is 571-272-2266. The examiner can normally be reached on M-F 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Diane Lee can be reached on 571-272-2399. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
